

Group 31 Batteries For: **MARINE VESSELS**

Durability in Marine Environments

Terra Supreme's Battery designed for use in boats and other marine vessels. These batteries are built for durability in marine environments, able to withstand vibration, moisture, and corrosion common on the water. The Group 31 form factor is an industry standard, making these batteries easy to install across many types of boats — from fishing boats and sailboats to cruisers and workboats. The batteries provide high capacity and long runtime to power things like lights, electronics, bilge pumps, and more, plus strong starting power to reliably start engines even after accessories have been used.

- ✓ 5000 cycles @ 50% DoD

Cranking Power

CCA:	1200
MCA:	1800
PHCA:	3000

A NEW Standard for G31 Batteries!

Terra Supreme Group 31 batteries deliver class-leading cranking power for engine starting and deep-cycle use, outperforming AGM and lithium in CCA, MCA, and PHCA. With 240 minutes of reserve capacity and up to 4,000 cycles at 60% depth of discharge, **they exceed lead-acid lifespan while matching lithium durability.**

Designed as a true drop-in replacement, they require no charging system changes, support series or parallel setups, and feature a unique internal design with horizontal plates, no busbars, and **built-in Bluetooth monitoring for real-time data.**

10% Less Lead

Our bi-polar design uses 10% less lead than conventional batteries, reducing environmental impact and material costs.

98% Recyclable

All Terra batteries are fully recyclable through established lead-acid battery recycling networks.

Clean Manufacturing

Our Manufacturing 4.0 facility incorporates sustainable processes and minimal waste generation.
