

Group 31 Batteries For: **MARINE VESSELS**

Durability in Marine Environments

Terra Supreme's Battery designed for use in boats and other marine vessels. These batteries are built for durability in marine environments, able to withstand vibration, moisture, and corrosion common on the water. The Group 31 form factor is an industry standard, making these batteries easy to install across many types of boats — from fishing boats and sailboats to cruisers and workboats. The batteries provide high capacity and long runtime to power things like lights, electronics, bilge pumps, and more, plus strong starting power to reliably start engines even after accessories have been used.

- ✓ 4000 cycles @ 60% DoD
- ✓ -40°C to 60°C operating range
- ✓ 5-Year New-for-Old warranty
- ✓ Built-in Bluetooth® Terra eBM™

Performance Specifications

Reserve Capacity:	240 minutes
Amp Hours:	105Ah
kWh Capacity:	105Ah x 12V = 1260Wh = 1.26kWh
Dimensions: *	13.27 (W) x 7.13 (D) x 10 (H)

Cranking Power

CCA:	1200
MCA:	1800
PHCA:	3000

Product specifications are subject to change without notice.

Reduced Downtime and Improved Reliability

Terra Supreme Group 31 batteries offer reliable power delivery that helps prevent no-start conditions and equipment shutdowns, reducing costly downtime and keeping projects on schedule. Designed for rugged use, Terra Supreme Group 31 batteries are built to withstand:

- **Constant vibration and shock**
- **Extreme temperatures**
- **Dust, moisture, and exposure to chemicals**

This makes them ideal for both entry-level and advanced commercial solar and wind power systems.

Versatility Across Vessel Types

The Group 31 form factor is an industry standard, making replacement and integration easy across many marine battery trays and systems.

- Fishing boats and bass boats
- Sailboats
- Cruisers and yachts
- Commercial workboats

A NEW Standard for G31 Batteries!

Terra Supreme Group 31 batteries deliver class-leading cranking power for engine starting and deep-cycle use, outperforming AGM and lithium in CCA, MCA, and PHCA. With 240 minutes of reserve capacity and up to 4,000 cycles at 60% depth of discharge, **they exceed lead-acid lifespan while matching lithium durability.** Designed as a true drop-in replacement, they require no charging system changes, support series or parallel setups, and feature a unique internal design with horizontal plates, no busbars, and built-in Bluetooth monitoring for real-time data.

10% Less Lead

Our bi-polar design uses 10% less lead than conventional batteries, reducing environmental impact and material costs.

98% Recyclable

All Terra batteries are fully recyclable through established lead-acid battery recycling networks.

Clean Manufacturing

Our Manufacturing 4.0 facility incorporates sustainable processes and minimal waste generation.

Environmental Regulations

- ✓ EPA compliance for manufacturing
- ✓ RCRA hazardous waste management
- ✓ Clean Air Act adherence
- ✓ State environmental permits

Battery Standards

- ✓ BCI (Battery Council International)
- ✓ UL safety certifications
- ✓ DOT shipping regulations
- ✓ International standards (IEC)

Ask For Terra Supreme Batteries!

Terra Supreme Battery serves commercial, industrial, and government customers with volume pricing and custom solutions. Our procurement process is designed for efficiency and transparency. Visit our website or call us directly at **1-260-636-6618** for sales or distribution information.
